

Harbor City/Harbor Gateway Chamber of Commerce

Business neighbors joined together to promote business success.

Creating success in business always is a challenge. Competition, uncertain economics, workforce issues, rising costs and more seem to conspire daily to undermine owners' and managers' best efforts to turn a profit. Add to the usual mix the effects of adverse government regulation or legislation and the potential for profitability can quickly vanish.

Since its formation more than sixty years ago, the Harbor City/Harbor Gateway Chamber of Commerce has helped area businesses grow and prosper by fostering a dynamic partnership between government, community and business, and worked to encourage a healthy and secure environment where all can thrive.

Your membership dues investment helps fund the Chamber's continued work on behalf of our business community. Your membership *participation* can help you to grow your business.
